

Urbana

GPS308 PCC-R

Polycarbonate cover clear with reflector

Comprising eight different decorative models, the Urbana EPS300 range can be deployed in a wide variety of urban applications. At the same time, a distinct family design aesthetic is maintained thanks to the use of a single standard pole mount across the entire range. Whatever the application, Urbana's combination of excellent lighting performance and attractive day-time and night-time appearance adds to the ambience of the surroundings. The luminaires with Forest, Arctic and Tropic top covers address the issue of obtrusive light by means of dedicated bowls with top covers that prevent upward emission of light. The light pollution bowl Luner features a black coating on its upper hemisphere, to prevent upward light distribution. Both the opal Polar and clear Cristal bowls offer a choice of soft, diffuse lighting and bright, direct illumination.
